OVERVIEW
Homework is a valuable aspect of the learning process, it contributes to the development of independent study habits, time management, project management, self discipline and improved literacy and numeracy skills of our students.

AIMS
To:
- Encourage all students to develop time management and organisation skills.
- Develop consistent study habits.
- Foster an ownership of the learning process.
- Consolidate skills for all students and help prepare them for lifelong learning.
- Encourage communication between home and school.
- Encourage parents to take an active interest in their child’s learning.

GUIDELINES FOR IMPLEMENTATION
- Students should have some form of regular homework set each week.
  - Junior School (approx 30 min)
  - Middle School (approx 1 hour)
  - Upper School (approx 2 hours)
- Daily reading will be encouraged in addition to regular homework.
- Expectations of homework required should be clearly explained to the students.
- Homework should be relevant to the class program and should be an extension of the outcomes that are addressed in the classroom environment.
- Consideration should be made for the special needs, abilities, skills and learning styles of individual students.
- Homework will be monitored and appropriate feedback provided when required
- Homework may include tasks from any curriculum area.
- Parents will be actively encouraged to support the homework expectations
